

NIDAL HASAN AND HIS VERY BADASS EIGHTEEN YEARS

A column.

VALENTIN BURA

I'll be damned, we're about to be making a spectacle out of an innocent man's loss of his life...

Look, there's deep shit here that I don't quite comprehend.

Since you're going to film the guy while spitting his guts out, why don't you allow him to speak freely?? Because personally, I am confused.

The guy did shoot some subjects. Who were the dudes that he shot? I must know this. Indulge me, please.

Yes. An army physician losing his head over
some Jihadist connotations... I'm not going to
buy that.

And you aren't buying that either, Mr. Donald
Trump.

Honestly!!
